RESUME

[A Josue]

Summary:

Aspiring Software Developer initially having no knowledge and expertise on software development and design principles and acquiring skills and knowledge throughout a 24-week bootcamp and adapting to a topic which has various dynamics to it. Proficient in a wide range of programming languages, tools and methodologies. Eager to craft my skills further within this field and take it to the next level.

Education:

[Full Stack Web Development]

[Birmingham]

[March 2023 – Sept 2023]

- Learned to code in modern web development technologies, including HTML, CSS, JavaScript, and React.

- Gained knowledge on giving commands within Git Bash or within the terminal

- Gained hands-on experience with server-side programming using Node.js and Express and the client-side.

- Acquired knowledge of database management systems, including SQL and MongoDB/NoSQL.

- Developed and deployed full-stack applications, demonstrating a strong understanding of the software development lifecycle.

- Contributed to projects involving a team and coming up with particular ideas

Skills Gained During Bootcamp:

Technical Skills:

- Programming Languages: JavaScript

- Front-End Technologies: HTML, CSS, React, PWA

- Back-End Technologies: Node.js, Express, MongoDB, NoSQL, SQL, OOP

- Version Control: Git and GitHub

- Web Development Tools: Visual Studio Code

- API Development: RESTful APIs, Web APIs, Server APIs, JSON

- Deployment: Heroku, GitHub Pages

- Testing and Debugging: Jest, Postman
